DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to a polymer for delivery to a polynucleotides to a cell comprising a polyvinylether, classified in class 585, subclass 10.
 - II. Claims 13-29, drawn to a composition for delivery of polynucleotides to a cells comprising a polynucleotide and a polyvinylether, classified in class 514, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are directed to related inventions. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, invention I, a polymer, is distinct from the composition of a polymer and a polynucleotide in Invention II. It is possible to use the polymer in invention I for uses other than the delivery of polynucleotides (organic molecules, proteins, drugs?) and in other applications (polymers are often used in food preservation). In addition, it is possible that invention II comprises more than the polymers and nucleotides (adjuvants, carriers, transporters etc.) stated. Inventions I and II are biologically, compositionally and functionally distinct, and are thus capable of supporting individual patents.

3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
